Staking Plan.....5

Appendix.....7

## Introduction

First of all, congratulations and thank you for downloading The Crafty Italian System

I call it The Crafty Italian System because it focuses on runners ridden by Frankie Dettori, one of the greatest jockeys to ever ride in the UK (and one of the craftiest!) – and identifies clearly where the best value is when backing his rides.

When I was doing some research last year, I have to say I was surprised to discover that just blindly backing all of Frankie Dettori's rides over the last few years would have produced a profit!

I was working on something else at the time so didn't have time to look into that little nugget further but over the last few weeks I've been sweating over the pc applying a variety of filters to Dettori's rides to see if profits can be improved by applying a few simple, logical filters

And they certainly can!

The system has a deceptively simple set of selection criteria – but don't let that fool you. It has produced consistent profits year in and year out since the start of 2015 and throws up selections that are significantly under bet.

I hope you enjoy it!

Kieran Ward  
MYBP Ltd

P.S. You can find out more about me and my ongoing antics in the battle against the bookmaker at my blog:

## The System

The rules of this system are simple but very effective.

- Ridden by L Dettori in the United Kingdom
- Race must be Class 1, 2 or 3 Non Handicap
- Industry SP of 20/1 or less at the off.

The rules are so simple you might think it unlikely that such a system could be profitable but you would be very wrong. Backing to level stakes of £50 since January 2015 would have produced profits of £6,713 at industry SP. Even more excitingly, backed to £50 stakes at Betfair SP these selections have produced a profit of £12,139 after commission at 5%. I have little doubt that those profits could have been improved by taking a morning price with best odds guaranteed.

It is also worth remembering that these profits have been produced from only 589 bets in 4 and a half years – hardly a heavy workload!

## Performance

The table below shows performance since January 2015 at Betfair SP:

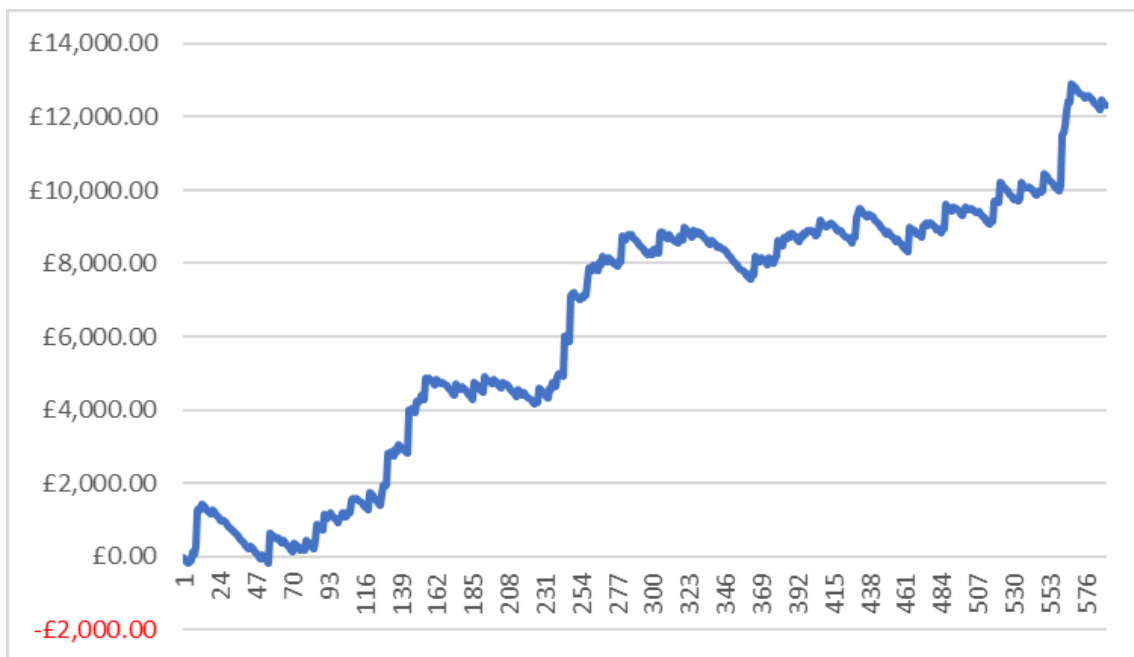

Bets	589
Wins	159
Win Strike	26.99%
Profit/Loss	+242.78 points
Profit on Turnover	41.22%

## Staking Plan

Be wary of systems sellers that advocate the use of a staking plan to overcome flaws in their product. A system worth its salt will usually hold its own to level staking, and The Crafty Italian System does just that.

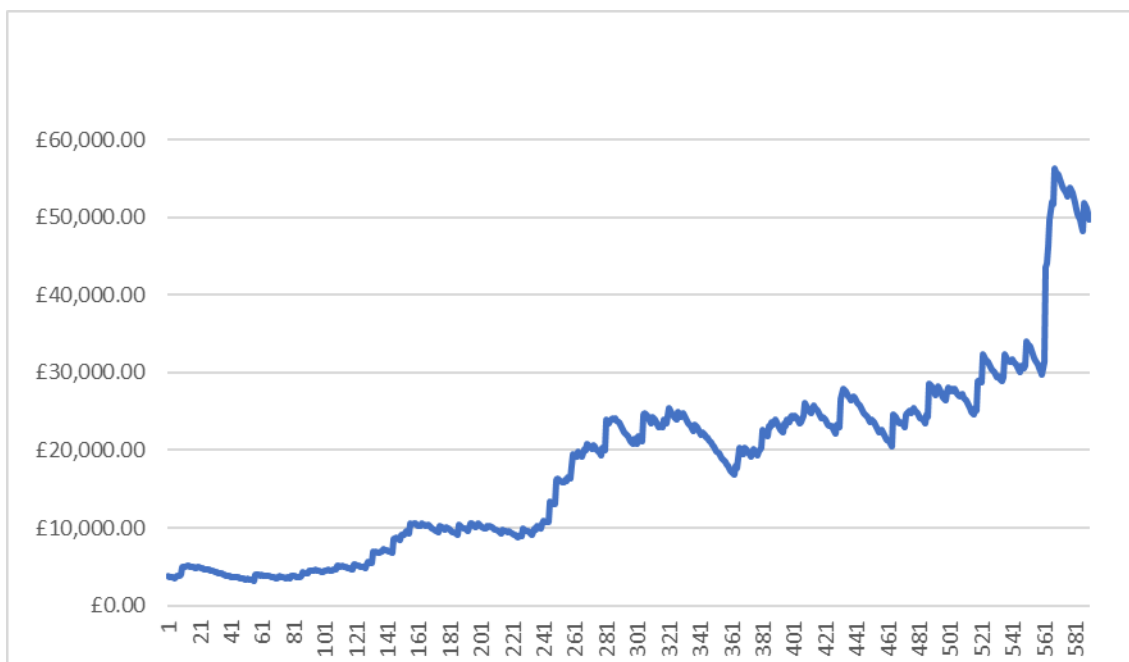

Great profits can be made using a level staking plan. The graph below shows growth of betting bank since Jan 2015 betting £50 level stakes.

**Profit to Level £50 stakes**

However, more excitingly, vastly increased profits can be produced using the power of compounding. The graph overleaf shows growth when staking £50 from a 75 point bank and adjusting stake at the end of each month to keep the bank at 75 points.

## Growth of a £3750 (75 points) bank recalculated monthly

A very conservative staking compounded staking of a 75 point bank on each selection recalculated monthly has grown a bank from £3750 to £49,749.11 in just 4 and a half years! And those aren't pie in the sky numbers – even at that level, you are staking just over £700 a selection – more than possible at Betfair SP in these type of races.

So there you have it - an easy to operate system that produces consistent profits year after year for a very small investment of time.

Good Luck

Kieran
